About us

Bauer is a family run UKAS accredited business with more than 30 years of experience throughout all sectors.

We believe that maintaining our exceptional reputation has a lot to do with having people on board, who wholeheartedly represent our values.

We have a wealth of experience in delivering tailored solutions across an array of challenging environments and have partnered with clients in varied market sectors from local authority housing to commercial clients.

The Bauer Approach

Across the group we have worked on a huge variety of projects large and small and have accumulated a wealth of experience within the organisation. This experience and the commitment of the professionals who have gained it has become a defining element of the Bauer approach. We have completed an impressive portfolio of projects and have an unrivalled reputation for maintaining compliance.

The Sustainable Way

The team at Bauer strive to provide a first-class, delivery-focused service that meets all stakeholders' expectations. Reliability, quality, trust and professionalism along with a robust health and safety department means you can rely on us to deliver.

Our Capability

When you partner with Bauer, you will benefit from one team of specialists, under one contract, all in alignment, saving you money and saving you time. Drawing on a diverse range of skills and expertise, Bauer strives to meet the needs of your risk and compliance requirements – big or small – delivering a coordinated and timely response.

Our One Team Approach

Alpha Tracker Database

The latest version of Tracker for asbestos consultancies, asbestos surveyors and asbestos consultants is Alpha Tracker. Alpha Tracker takes all the award-winning quality of Tracker and puts it in a convenient browser form.

This means you can access asbestos software Alpha Tracker anywhere - from the office, the lab, home or even out and about on your Apple or Android smartphone or tablet.

All of Alpha Tracker asbestos data can be exported on to any clients databases, i.e APEX, Keystone, CSV Files.

Login via our client portal and manage your buildings via the internet.

Core Services

Air Monitoring

Bauer are able to supply UKAS accredited air monitoring nationally from our fleet of mobile laboratories. Our analyst teams all hold the P403 and P404 certification.

Asbestos Surveying / Testing

Bauer Can provide UKAS Accredited Asbestos Surveys for all types of properties across the UK. All our surveyors hold P402 certification.

Laboratory Analysis

Bauer can offer a UKAS analysis service within our inhouse laboratory to identify asbestos supplied samples or we can come to you to safely collect samples and return them for analysis.

Mobile Bulk Analysis

Bauer can offer a UKAS analysis service from our mobile laboratory to identify asbestos materials on site and provide certification.

Non-Licensed Work Asbestos Removal

Bauer can offer fully insured NLW asbestos removal works for our national clients. All staff are trained and certified for all tasks.

Asbestos Project Management

Bauer work with you and the licensed asbestos removal contractor (LARC) to ensure all work is carried out safely and in accordance with your instructions. Our experienced personnel will review working methods, equipment, and risk assessments, prepare the site, verify arrangements for waste removal and transit, and supervise works to guarantee compliance.

Environmental Services

Bauer can offer various environmental services to your premises to remove remaining sources of infection. We provide a reactive service, enabling your business to return to a functional state with minimum disruption; reassuring your staff and customers that it is safe to return.

Water Testing / Control

Bauer can offer water testing analysis which will be analysed at an approved laboratory. Legionella samples must be cultured for 10 days in the laboratory. In accordance with ACoP L8 and HSG 274.

Case Studies

Asbestos Air Monitoring

Bauer have been carrying out air monitoring nationally throughout the housing & Commercial sector for various clients, ranging from backgrounds and leak monitoring, through to the full fourstage clearance process. Bauer are able to utilise their self-contained mobile laboratories.

Asbestos Surveying / Testing

Bauer have been awarded various housing contracts nationally undertaking Management / Refurbishment surveys & Reinspection's and updating clients Management plans.

Asbestos Removal / Management

Bauer has been requested to carry out asbestos removal management throughout various housing & commercial sectors.

Asbestos Surveying / Testing

Bauer has been awarded a Network contract nationally & throughout Scotland carrying out Surveying and Testing for a blue-chip client.

Contaminated Land Project Management

Bauer was awarded a asbestos testing land contamination project for a Blue Chip demolition / enabling client. Our Contaminated Land team offer a range of professional services, working with a specialist surveying and investigation team.

Coronavirus (COVID-19) – Biohazard Cleaning Services

Bauer was instructed by Billericay Football Club. Bauer fully disinfected BTFC premises to remove remaining sources of infection. We provided a reactive service, enabling BTFC to return to a functional state with minimum disruption; reassuring their staff and players that it is safe to return.

Clients

Bauer have been carrying out asbestos surveying / sampling and air testing through various boroughs.

Extent of the work:

Management / Refurbishment and Reinspection asbestos surveys area carried out, once the independent asbestos contractor has carried out their work, the client will then instruct Bauer to inspect and carry out the air testing to ensure all works have been completed, and then the survey report is updated.
